# Introduction Stakerhub

**Stakerhub a High Yield Investment program developed for the Defi community. The contracts are designed to help crypto investors earn consistent returns on their holdings while waiting out the bear market.**

**By staking their crypto assets on Staker.cafe, investors earn consistent yield returns and enjoy a strong ROI. This is a community-driven project that thrives on active participation. We encourage all members to re-invest a small portion of their profits to help sustain the contract's long-term stability.**

**Our on-chain investment program is highly secure. The smart contract has been thoroughly audited and verified to be 100% safe. With built-in sustainability features, the system is designed to remain reliable and profitable over an extended period.**

# Locked Plan with Compound Interest

This plan uses the power of compound interest, where your daily profit is automatically added to your capital.

Each day, your next day's profit is calculated on a growing balance. You cannot withdraw daily profits — your funds are locked for 25 days. On day 25, you get your entire capital + compounded profit in one payout. Referral commissions are instantly credited to your wallet and can be withdrawn anytime — no lock-in, no waiting.
